New for Dietary Supplements

Beta-Carotene 10% DC/GFP

Vegetarian dry powders for direct compression

Human Nutrition

Beta-Carotene 10% DC/GFP

- All ingredients are vegetarian (non-animal-derived), protein-free, GMO-free, and nonallergenic according to EU's allergen directive (2003/89/EC)
- Free-flowing, nondusting beadlet powder with high density and narrow particle size distribution
- Secured bioavailability of the Beta-Carotene formulation

Application

- Dietary supplements, especially for multivitamin mineral tablets made by direct compression
 - No oil expression at compression or discoloration of tablets
 - High tablet stability

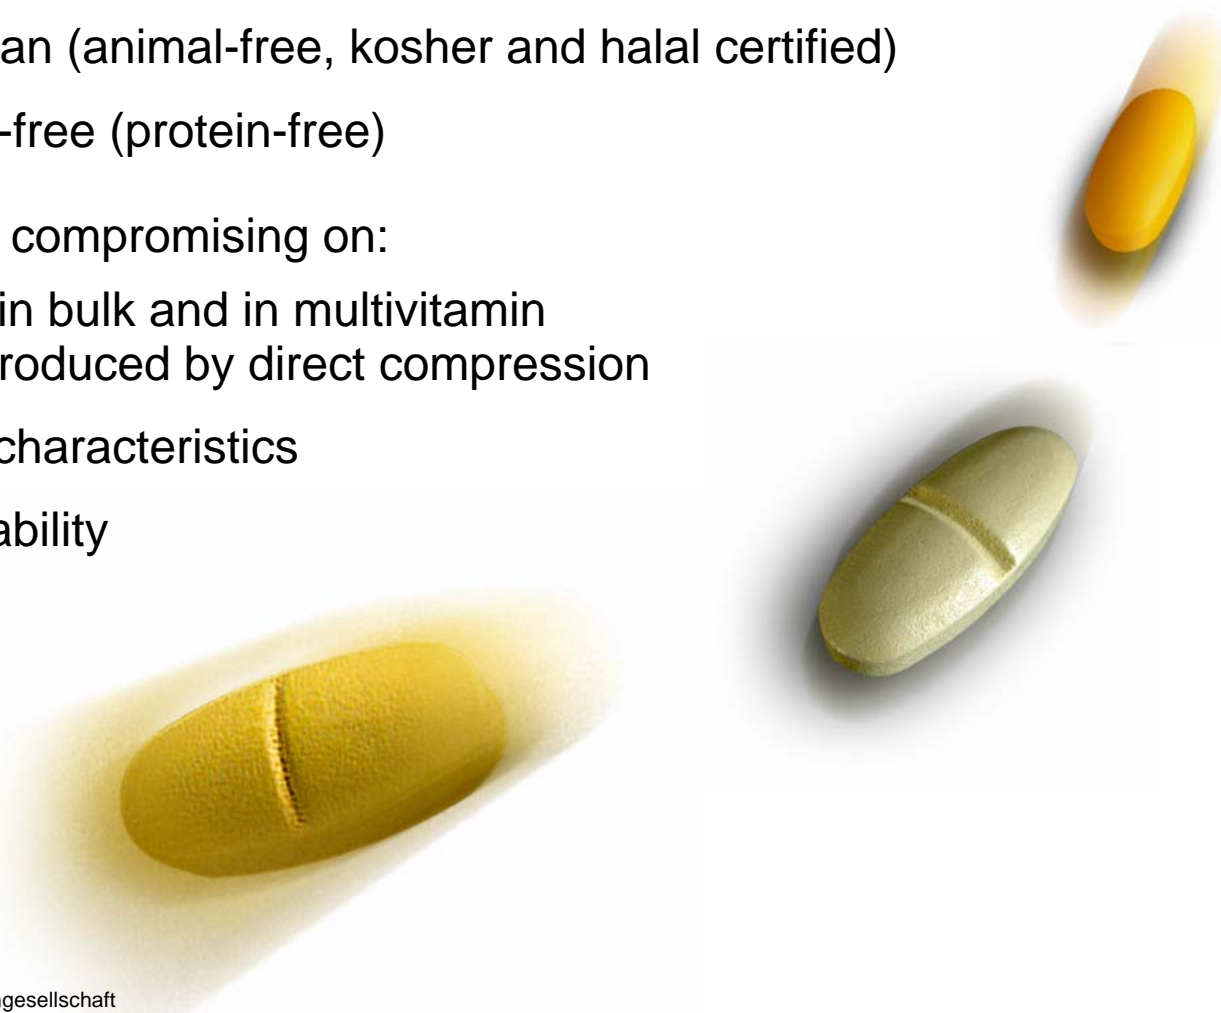

■ Beta-Carotene 10% DC/GFP is currently the **ONLY** formulation that combines the following new features:

- Vegetarian (animal-free, kosher and halal certified)
- Allergen-free (protein-free)

WITHOUT compromising on:

- Stability in bulk and in multivitamin tablets produced by direct compression
- Powder characteristics
- Bioavailability
